Brooklyn, NY 11206 adrien@alaq.io - +1 (646) 410-3409

SUMMARY

Experienced senior software engineer with expertise in large-scale distributed systems. Known for innovative problem-solving and project management, I excel in developing scalable code and leading diverse teams, focusing on continuous improvement and crafting technically precise, user-centric applications. Excited to join a dynamic team, utilizing my experience in large system architecture to address challenging problems.

CORE AND TECHNICAL COMPETENCIES

Software Engineering — Project Management — Team Leadership — Continuous Improvement — Process Optimization — Documentation — Distributed Systems — Scalable Code Development — Cross-Functional Coordination — Quality Assurance

EXPERIENCE

WhatsApp
New York, NY

Senior Software Engineer - Backend - Group messaging and Communities

April 2022 - July 2023

- Launched Communities feature, improving user engagement and adoption targets.
- Contributed to key backend projects, including Group Join Request, enhancing user experience for WhatsApp's extensive 2.5 billion user base.
- Championed a cross-functional effort to transition user identifiers from phone numbers to internal identifiers, significantly enhancing system resilience and user privacy.
- Improved existing endpoint latencies by up to 40% in the context of Communities, markedly improving response times and system performance.
- Developed and integrated GDPR-compliant reporting features, upholding WhatsApp's adherence to strict data protection regulations.
- Served as an on-call support engineer for critical systems (group messaging backend), optimized the process, highlighted inefficiencies, effectively mitigated outages, and reduced impact on system performance.

Bloomberg L.P.

New York, NY

Senior Software Engineer - Trading & Analytics

May 2018 - March 2022

- $\circ\,$ Designed, built and released new features to Bloomberg's full stack trading platform framework, while maintaining system stability.
